

We had a lot of fun with Yap who gave us interesting insights of Singapore and provided us with delicious food! Totally recommended!

Food tours are a wonderful way of learning more of local cultures. We did 2 of Monster Day Tours' food tours and found them fascinating... Yap was an excellent and very knowledgeable guide (not only about food) on both occasions.

We have done some food tours elsewhere. But this one stands out and probably the best so far. Yap our tour guide started off with a formal talk on Singapore and slowly stepped up his rapport with us. And just 30 minutes into the tour, my son was talking to him as though he was his school buddy. Yap patiently and happily answered all my son's questions in the interaction with so much of information...

We did the walking tour of Little India with Yap as our guide. Yap was extremely knowledgeable and his commentary was very interesting and informative. Thoroughly recommended.

Great day with Yap, we went to two local Hawker Centres and ate amazing food (go hungry) and wandered through areas we wouldn't have found on our own. Not just food, great chat and history. Yap is engaging and rich in knowledge past and present on Singapore. Absolutely recommend this tour.

We had a great tour with Yap - he was so knowledgeable about the fantastic local foods we tasted as well as the history and facts about Singapore (the walk helped us digest between food tastings!). Our teenagers also enjoyed and overall would definitely recommend for an introduction to Singapore.

We did a food tour with Yap in October 2017 & it was fantastic. We got to experience dishes from many different cultures within Singapore, all delicious, we still remember it all!

An excellent introduction to the historical, culinary and social aspects of Chinatown. Yap was very informative, entertaining and capable of answering the wide range of questions that were asked.

Our guide Yap told me... He was right. The food he choose for us was amazing and not things I would have chosen myself. In addition to the food we were shown a lot of interesting local sights. Yap was very knowledgeable and friendly. I definitely recommend this tour.

We went with our super friendly and knowledgeable guide Yap through Kampong Glam as well as Marina Bay. He took us to some hidden off the path places and shared a lot of information about his country. He even invited a small group of us for Popiah, a local dessert and Roti. We had two nice tours and a lovely day with him!

Not only the food was superb, we also learn a lot about Singapore's local heritage and history. Went to places where tourists rarely goes to as well.

Our tour guide, Yap, was very friendly, knowledgeable and informative. It was so much fun having the tour with him.

I took the Leisure Cycling package ... As a Singaporean, I am ashamed to admit that my knowledge of Singapore history is slightly wrong or non-existent ...
I would like to thank Yap for the wonderful experience and concise explanation at each checkpoint.

First time in Singapore and traveling solo. There is no better way to see a city but go on one of The Monster tours. Our guide Dani was amazing, loved the first tour of China Town so much joined the Little India tour the following day. Very informative, great aspects and inside knowledge of the city areas we viewed.

If you want to know the real beauty of Singapore and also the history, look no further. Monster has the best possible tours for you. I have taken their tour of China town (Free tour), Little India Tour (Free tour) and the e-scooter tour. I would like to state that every one of these tours were incredible experience. The knowledge of the staff is beyond compare, Yap, Isabel and Bas were all great guides, special mention of Bas, gave me a tour experience like none before.

The e-scooter tour - one of the first of its kind, was the most exciting experience, and I doubt if anything else can beat this experience that I had. I would like to say that WE had a wonderful experience, though it was me by myself, my guide, Bas, became a family member to me during this trip and we enjoyed it together. I experienced the true beauty of Singapore and came to know of its culture, heritage and history.. The blend of the old and new Singapore is just outstanding on this tour. I think that Singapore is one of the few places where we can tour on an e-scooter due to the excellent infrastructure. This also gave an opportunity to travel a very long distance, at our pace.

I will definitely take up all the tour package that Monster has, and I would suggest all travelers to Singapore to take up these wonderful tour packages by Monster. (Checked attached photos for the experience that I had)

Note: The name Monster signifies only the vastness (depth) in their service and tour (value for money) each one of their staff are well mannered even if it a free tour, they will go to any extend to make it a memorable experience for you and customize it for you wherever possible.

Simply Fantastic.

Dani & Yap really brings out the best places has to offer, joining them off road with food sightings and flavourful vantages. With great pleasure to have been brought through Kampong Glam, Chinatown, Little India on foot, bashing through what had seemed so familiar.

I reckon that if you're looking for something in Singapore, it's a good bet they would know it.

We (family of 10, from 7 to 70 years young) booked the 1/2 day Singapore Food Tour. I normally do not give reviews, but I must compliment Yap and his absolutely superb tour skills. He took us to 4 different food experiences (Chinese, Indian, Malay and of course the famous Hainese Chicken Rice 🍲). He made sure to show us so many points of interest along the way, with so many interesting facts about Singapore. If this is a first, or even repeat trip, you must book a tour with Monster Day Tour. And be sure to ask for Yap. He made this a most memorable day for our family. 🍀🍀🍀🍀🍀

Thank you Yap for your excellent tour – we really loved it. Actually, it was the highlight of my visit to Singapore.

Keep up the good work.

We really loved the detail we went into when explaining the different areas we found ourselves in. The stories and history was also very valuable information – it helped me understand where the modern Singapore came from.

Your tour we perfectly paced and very thoughtful – something that I'm personally grateful for.

Thanks again for your excellent service.

Kind regards,

Craig and Jack
